Election/Restrictions

1. This Election/Restriction is being sent due to the typo of '3' months set for the statutory period in the Office Action Summary filed on 11-18-2005 as noted in a phone interview with Applicant's representative Brian Hennessey on December 29, 2005. The Summary should have noted the statutory period is set for 1 month(s). The correction is noted in the Supplemental Office Action Summary in this action.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 and 2, drawn to a phase lock oscillator comprising a limit discriminating section for detecting a limit, classified in class 331, subclass 16.
 - II. Claims 3-19, drawn to a frequency synthesizer within a communication equipment that includes a phase lock oscillator, classified in class 455, subclass 452.1 and class 455, subclass 260.
3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable.
 - In the instant case, invention I has separate utility than invention II, such as a generic phase-locked loop.
 - Invention II has separate utility than invention I, such as a communication equipment that transmits or receives at a higher transmission rate or bandwidth before a lock state.
4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and have acquired a separate

Art Unit: 2645

status in the art because of their recognized divergent subject matter, and the search required for each invention is not required for the other, restriction for examination purposes as indicated is proper. See MPEP § 806.05(d).

5. A telephone call was made to Applicants' representative, Linda S. Chan (Reg. No. 42,400), on November 8, 2005, to request an oral election to the above restriction requirement, but did not result in an election being made.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement may be traversed (37 CFR 1.143).

7. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R 1.48(b) and by the fee required under 37 C.F.R 1.17(i).

8. A shortened statutory period for response to this action is set to **expire 0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the applicant (see 35 U.S.C 133, MPEP 710.02, 710.02 (b)).
